Dhaka, Bangladesh | +8801854549405 | radhshahmat91@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building MERN applications, RESTful APIs, authentication systems, responsive interfaces, and real-time features. Experienced in developing practical web projects using React, Node.js, Express.js, MongoDB, and modern development tools, with a focus on functional, maintainable code.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript(ES6), Typescript, React, Tailwind CSS, Next.js

Backend: Node.js, Express.js, MongoDB, JWT Auth, RESTful APIs

Tools: Git & GitHub, Vite, Vercel, Axios, Framer Motion, VS Code, Figma

Soft Skills: Time management, Adaptability, Teamwork, Problem-solving

PROJECTS

AcademiaConnect [Live Demo](#) | [GitHub](#)

- Developed a role-based university platform using React, Node.js, Express and MongoDB.
- Implemented courses with video lectures and notes, clubs, events, campus-wide notices, profiles, and an admin panel.
- Built JWT authentication and real-time student messaging using Socket.io.

Velora [Live Demo](#) | [GitHub](#)

- Built a full-stack restaurant ordering and management platform with menu browsing, cart, checkout, reservations, events, and an admin dashboard.
- Technologies: React, Vite, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Vercel and Render.

Vroomly [Live Demo](#) | [GitHub](#)

- Built a full-stack peer-to-peer car rental and booking marketplace for renters, vehicle owners (hosts), and admins.
- Implemented car search and filtering, bookings, card payments, reviews, host vehicle management, listing approvals, complaints, and revenue monitoring. Technologies: React, Node.js, Express.js, MongoDB and Stripe.

Jobhunt [Live Demo](#) | [GitHub](#)

- Developed a role-based job platform for Job Seekers and Employers using React, Node.js, Express and MongoDB.
- Implemented job search, filtering, applications, saved jobs and employer applicant pipelines.
- Built authentication and authorization for separate user roles.

Thesis — Unveiling Gender Bias in Social Media Comments: An NLP Analysis on Bangladeshi Influencers

Conducted an NLP-based study of gender bias in Bangladeshi YouTube comments using manually annotated Bangla, English, and Banglish data. Established a reliable ground-truth dataset through multi-annotator agreement and adjudication, performed statistical analysis, and prepared stratified train/validation/test datasets for machine learning experiments. Applied sentiment, toxicity, emotion, and bias analysis to investigate differences in audience responses toward male and female influencers.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science and Engineering

United International University

Relevant Coursework: Data Structures and Algorithms (C++), Artificial Intelligence (Python), Web Development (JavaScript, PHP, MySQL), Computer Networks, System Analysis and Design.
